

Name _____

Date _____

What Is an Insect?

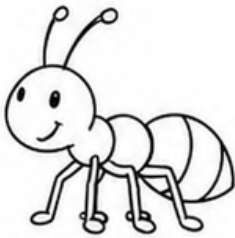

Insects have 6 legs, 3 body parts, and often have antennae.

Some insects have wings.

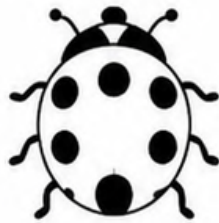

Look at each picture. If it is an insect, circle it.

If it is not an insect, cross (X) it.

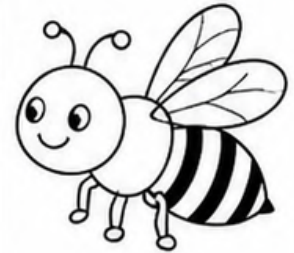

Ant

Ladybug

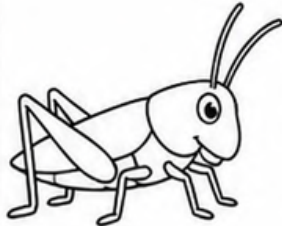

Spider

Honey Bee

Butterfly

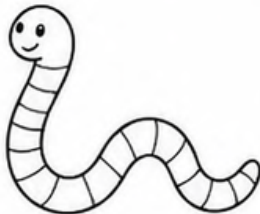

Grasshopper

Snail

Dragonfly

Earthworm

Mosquito

Frog

Fun Fact: All insects have 6 legs. That is what makes them different from spiders, worms, and many other animals!
